

October 4th E-Learning Day

Period 3 Concert Band

For today's assignment, you will need to download the attached video link to another high school band performing "X Factor" by Michael Oare.

Once you have downloaded the video, you will need to watch the performance by this band. While watching the band, take notes on their performance. You should be able to answer the following questions:

1- What is this band doing well with this piece? Are there things we could improve on based on seeing this video? You can comment on any areas of their musicality (tempo, dynamics, tone quality, articulations, and etc.)

2- What is our band doing well with this piece? Are there things we are doing better than the school in this video? You can comment on any areas of our own musicality (tempo, dynamics, tone quality, articulations, and etc.)

3- Take a moment to discuss the professionalism of this band and their live performance. You can discuss concert dress, posture, or anything that you feel affects the overall professionalism shown during a performance.

Once you have made notes, go back to the E-Learning site on our website and use the "Submit Homework" link to directly send me your comments on the three questions listed above. This link will send your homework directly to my email.
