

October 4th E-Learning Day

Period 5 Marching Band

For today's assignment, you will need to download the attached audio links from our performance on Saturday. While we did not compete, the judges evaluated us exactly the same as the bands who were competing at the event.

Once you have downloaded the files, you will need to make notes based on their comments. Be prepared to submit feedback based on the following three questions:

1- Music Judge: What areas is this judge complimentary on our performance (things we are doing well and need to continue to do well)? What are this judge's suggestions for things we can improve upon (things he feels we could do better at)?

2- Visual Judge: What areas is this judge complimentary on our performance (things we are doing well and need to continue to do well)? What are this judge's suggestions for things we can improve upon (things he feels we could do better at)?

3- YOU are the JUDGE: What are some areas you feel the band is doing very well at? What are some areas you feel the band needs to improve at? These do not need to be directly music or visual related. These can also be other areas of our program (loading, keeping facilities neat and organized, binder usage, attitudes, work ethic, and etc.

Once you have made notes, go back to the E-Learning site on our website and use the "Submit Homework" link to directly send me your comments on the three questions listed above. Be sure to answer all three questions. This link will send your homework directly to my email.

AUDIO LINKS to HOMEWORK

are on the website directly under the link where you downloaded this document.
